OIT #1169-88

9 NOV 1988

MEMORANDUM FOR: Director, National Photographic Interpretation Center

FROM: [REDACTED]

Deputy Director of Information Technology

SUBJECT: OIT Support for NPIC Connectivity Requirements

REFERENCE: A. Your Memo (NPIC D-255/88), dtd 29 July 19,  
Same SubjectB. OIT Memo (OIT 0547-88), dtd 30 Aug 88,  
Subject: Additional Connections to Central  
System

1. Numerous discussions have taken place over the past few months on the subject of NPIC connectivity requirements and OIT responsiveness to these requirements. I would like to offer my personal assurance that OIT remains committed to providing the services you have requested.

2. While he was Deputy Chief of OIT's Network Services Group, [REDACTED] had been in contact with members of your organization. On 19 and 20 October he contacted [REDACTED] of your Application Branch concerning SNA connectivity. OIT understands this to be an urgent requirement and is committed to providing this service by 15 December 1988.

3. In a broader context, we encourage you to refine, to the extent possible, your five-year projection of NPIC connectivity needs. We would be pleased to assist in the review of this five-year projection. This would enable us to better understand the overall direction of your connectivity needs and to meet those needs in a more comprehensive way.

4. I have designated [REDACTED] the newly appointed Deputy Chief for Technology, Network Services Group, as the OIT focal point for your connectivity needs. He can be reached on [REDACTED]
